PGY-2 Critical Care Pharmacy Residency Program

A 1,067-bed acute care teaching hospital serving as a major tertiary facility for much of the Southeast, Florida Hospital is located in Orlando, Florida and treats over 32,000 inpatients and 125,000 outpatients annually. Home to nationally recognized institutes and programs for cancer, cardiology, critical care, diabetes, emergency medicine, general surgery, infectious diseases, internal medicine, oncology, orthopedics, neuroscience, and solid organ transplant, Florida Hospital is a leader in evidence-based medicine. Affiliated with seven other acute care programs throughout Central Florida and twenty-four through the state of Florida, Florida Hospital is one of the largest Medicare providers in the United States. Ranked by U.S. News & World Report as one of the best hospitals in the United States and as the number one program in Florida, Florida Hospital has a long standing history of excellence in patient care and provides a robust portfolio of specialty services as well as cutting edge clinical programs to highly complex patient populations. Critical Care services are provided to over 150 intensive care unit beds.

Our primary mission is to provide quality pharmaceutical patient care. As part of multidisciplinary teams, we share the responsibility of monitoring responses to drug therapy and optimizing care to improve patient outcomes. Residents who complete the Critical Care Pharmacy Residency Program at Florida Hospital Orlando will develop the critical thinking skills necessary to provide specialized, patient-focused care and become confident, independent critical care specialists on the health care team. The program consists of the following learning experiences:

**Required Learning Experiences:**
- General Critical Care and Operations (Orientation)
- Medical Intensive Care
- Neuro Intensive Care
- Cardiac Intensive Care
- Multi-system Intensive Care
- Cardiothoracic Surgery
- Emergency Medicine

**Example Elective Learning Experiences (may select 3):**
- Pediatric or Neonatal Intensive Care
- Critical Care Transplant
- Antibiotic Stewardship
- Vascular Thoracic Intensive Care
- Research
- Advanced month of any core rotation
- Hospital Management

Required activities include a minimum of: 1 medication use evaluation, 1 research project suitable for publication and presentation at a professional meeting, 4 journal clubs, 4 patient case presentations, 1 Formulary review, 1 hour ACPE-accredited continuing education presentation, and ACLS certification. To build practice leadership skills, participation will also be expected in the following: Pharmacy and Therapeutics Committee; Formulary Subcommittee; performance improvement projects; student, employee, and resident teaching; and Medication Safety Committee.

Positions available: 2 full-time, 12 month commitment
